STAFF REVIEW · H446 124 source models

Separate from the eight-page pupil workbook. This copy is in a public repository and is NOT access controlled. Check technical correctness before use.

Printed question mapping: Booklet Q1 = original online Q1; Booklet Q2 = original online Q2; Booklet Q3 = original online Q3

Do Now — source answers

1. Declarative programming.

2. Sum 0 and carry-out 1.

3. 10.

4. A link/reference to the next node (for a singly linked list).

I Do — source worked steps

1. Model answer — Parameter x=4, local result=8, return value 9, printed output 9. The local result does not become a global variable merely because the function runs. — Check: link each claim to the scenario and use precise OCR terminology.

We Do — guided CHECK

1. What must we decide?
Identify the inputs, relevant facts and exact output or judgement required.
Work through the method
Use the middle stage of the visual to follow the process and state each intermediate result.
Shared worked answer
Arguments bind w=3 and h=5; return 15; print shows 15. A procedure is intended primarily to perform an action rather than return a result (conventions vary by language).

You Do — source mark schemes

1. Reuse [2], modular testing [2], readability/maintainability [2].

2. n=2 [1], a=4 [1], return 12 [1], output 12 [1].

3. Local restricted scope [2], global broader visibility [2], bug example [2], mitigation with parameters/return values [2].

Exit Ticket — source answer

1. False. It is restricted by scope.
