BLACK PEN Answer all questions first. **GREEN PEN** Then: tick correct answers; rewrite mistakes.

Legislation and Copyright

Name _____ **Class** _____ **Date** _____ **Time** _____ **Teacher** _____

Do Now - Four retrieval questions

BLACK PEN: answer four questions before checking the answers.

1. Give a cultural impact of digital technology.

2. What does anti-malware detect?

A) Every future threat
B) Malicious software
C) All hardware faults
D) All weak passwords

3. "Every pupil needs full administrator rights for a secure network." Correct this. Explain why.

4. A new printer will not work. "A printer driver only stores website passwords." Correct this. How could the right driver help?

Today's objectives

Explain the core ideas of legislation and copyright using accurate OCR terminology. Apply a clear method to the worked and guided questions.

Key vocabulary - Read, cover, recall

Data protection

Personal data must be handled lawfully, fairly and securely under applicable UK data-protection rules.

Computer Misuse Act

Unauthorised access and certain unauthorised acts involving computer systems are offences.

Copyright

Protects creators' original works against unauthorised copying and distribution, subject to exceptions/licences.

Licensing and scenario

Decisions must consider permissions, access rights and purpose rather than treating all digital copying as legal.

Write one key term and its meaning in your own words:

Do Now	I Do	We Do	You Do	Review & Improve
Recall previous learning	Read new knowledge	Practise with guidance	Work independently	Check my understanding

BLACK PEN Answer all questions first. **GREEN PEN** Then: tick correct answers; rewrite mistakes.

Learn and practise

New learning - Key ideas

Data protection	Personal data must be handled lawfully, fairly and securely under applicable UK data-protection rules.
Computer Misuse Act	Unauthorised access and certain unauthorised acts involving computer systems are offences.
Copyright	Protects creators' original works against unauthorised copying and distribution, subject to exceptions/licences.
Licensing and scenario	Decisions must consider permissions, access rights and purpose rather than treating all digital copying as legal.

I Do - One worked example

A student copies a paid program onto every school laptop without permission. Identify the legal issue.

1. Identify software as copyright-protected work.
2. Explain licence terms may not permit copying/installation on additional machines.
3. Describe need for correct licences or permission.
4. Do not confuse copyright infringement with automatically being a Computer Misuse Act offence.

We Do - Guided questions

BLACK PEN: use the model, then explain your answer.

1. An employee accesses another person's account without permission. Identify law and rationale.

BLACK PEN Answer all questions first. **GREEN PEN** Then: tick correct answers; rewrite mistakes.

Think and write

Code First - Predict > Write > Test > Improve

YOUR TASK: Write the missing output when an optional personal-data field is unnecessary.

```
neededForService = false
if neededForService then
print("Collect")
else
...
endif
```

BLACK PEN: predict or complete the code; test, then improve.

For extended answers, continue on lined paper if needed.

You Do - Independent exam questions

Q2. Name the UK law relevant to unauthorised access to a computer. [1 mark]

Q3. Give one legal consideration when installing licensed software on many computers. [2 marks]

Q4. Explain one principle of data protection for school pupil records. [3 marks]

Exit Ticket - True or False?

Circle T or F before reviewing Page 4.

1. Knowing somebody's password automatically authorises access to their account. ☐ T ☐ F

2. Personal data must be handled lawfully, fairly and securely under applicable UK data-protection rules. ☐ T ☐ F

3. Unauthorised access and certain unauthorised acts involving computer systems are offences. ☐ T ☐ F

BLACK PEN Answer all questions first. **GREEN PEN** Then: tick correct answers; rewrite mistakes.

Review & improve

GREEN PEN: tick correct marking points, then correct errors.

Choose your hardest question to rewrite in full below.

Do Now - Answers

Q1 Digital communication can change language, access, traditions and how people take part in communities. ☐

Q2 B - Malicious software ☐

Q3 Give users only the access rights they need. This limits access without permission and possible damage. ☐

Q4 A driver lets the OS communicate with and control a peripheral, such as a printer. ☐

Code First - Model

```
neededForService = false
if neededForService then
print("Collect")
else
print("Do not collect")
endif
```

Output: Do not collect

We Do - Check the model

1. State that knowing the password alone does not supply permission. ☐

Exit Ticket - Check

1. FALSE 2. TRUE 3. TRUE

You Do - Self-mark

Q2 Computer Misuse Act 1990. ☐

Q3 Whether the licence permits the number and type of installations. ☐

Q4 Collect/use for lawful specified purpose, minimise data and keep appropriately secure. ☐

Try the question again

1. Copy the FULL question you found most difficult:

2. In GREEN PEN, write a complete new answer:
