STAFF REVIEW · H446 152 source models

Separate from the eight-page pupil workbook. This copy is in a public repository and is NOT access controlled. Check technical correctness before use.

Printed question mapping: Booklet Q1 = original online Q1; Booklet Q2 = original online Q2; Booklet Q3 = original online Q3

Do Now — source answers

1. A dot, .warning.

2. Required data already present in cache.

3. On sorted data.

4. Stack.

I Do — source worked steps

1. Select #go — Identify the input or diagram and predict the first result.

2. Register click listener — Follow the second stage and explain its importance.

3. Set #status.textContent — document.querySelector('#go').addEventListener('click', () => { document.querySelector('#status').textContent = 'Ready'; }); This waits for the click and updates plain text.

We Do — guided CHECK

1. Read #name.value
Identify the input or diagram and predict the first result.
Build greeting string
Follow the second stage and explain its importance.
Write safe text
Inside a click handler: const name=document.querySelector('#name').value; document.querySelector('#result').textContent='Hello '+name; textContent avoids interpreting the name as HTML.

You Do — source mark schemes

1. DOM document object tree [2], event signal [2], function executed in response [2].

2. Select button [2], addEventListener click [2], set paragraph textContent [2].

3. Responsive feedback [2], less round-trip traffic [2], bypassable browser code [2], repeat on server [2].

Exit Ticket — source answer

1. False; it registers a callback for a later click.
