STAFF REVIEW · H446 038 source models

Separate from the eight-page pupil workbook. This copy is in a public repository and is NOT access controlled. Check technical correctness before use.

Printed question mapping: Booklet Q1 = original online Q1; Booklet Q2 = original online Q2; Booklet Q3 = original online Q3

Do Now — source answers

1. Carry-in

2. A variable declared within a scope

3. The most recently inserted item is removed first

4. A, by absorption

I Do — source worked steps

1. Update in sequence — score starts at 7. Adding 3 changes the same variable to 10; the condition has not been tested yet.

2. Evaluate the condition — Substitute the new value: 10 >= 10 is true. Using the old value 7 would trace the wrong state.

3. Take the selected branch — The true branch prints Pass. For initial scores 6, 7 and 8, the updated scores are 9, 10 and 11: only the latter two print Pass.

We Do — guided CHECK

1. Check your thinking
Yes: 12 > 10.

2. Discuss, then respond
A user enters age 16. Test age >= 18.
Check your thinking
False; else branch executes.

You Do — source mark schemes

1. 11.

2. if (age >= 18) { Console.WriteLine("Adult"); }

3. Sequence executes ordered instructions; selection chooses a path based on a condition.

Exit Ticket — source answer

1. True. An else branch runs when the related if condition evaluates to false.
