STAFF REVIEW · H446 059 source models

Separate from the eight-page pupil workbook. This copy is in a public repository and is NOT access controlled. Check technical correctness before use.

Printed question mapping: Booklet Q1 = original online Q1; Booklet Q2 = original online Q2; Booklet Q3 = original online Q3

Do Now — source answers

1. Information needed for the model/use case.

2. To identify instances unambiguously.

3. Assumption that must hold for a calculation to be valid.

4. 2, 0, 1. Values checked are 6, 2, 4. The search finds 4 at index 1.

I Do — source worked steps

1. Explain — ParkingFee(hours)=hours×£2 for the simplified model; define non-negative hours and rounding rules.

We Do — guided CHECK

1. Explain
Fee=0.20×lateDays in this simplified rule; real libraries might cap fees or exempt users.

You Do — source mark schemes

1. Relevant child category, distance, fare rules [3]; clothing colour, phone brand etc irrelevant [2].

2. Input daysLate [1] non-negative validation [1]; fee=MIN(0.20×days,2.00) [3]; output fee [1].

3. Simple measurable indicator [1] but misses illness/SEND/context [2]; can bias decisions [1]; human review and further relevant variables [2].

Exit Ticket — source answer

1. False. It deliberately excludes irrelevant detail.
