DO NOW — RECALL

SQL INSERT, DELETE, DROP and LIKE

Name: _____ Class: _____ Date: _____

1. What does a primary key enforce?

2. What does SELECT * mean?

3. What is a foreign key used for?

4. Simplify A ∨ (¬A ∧ B) using a Boolean identity.

DO NOW — CHECK / OBJECTIVES

Correct and improve

Check page 1 in GREEN PEN. Write corrections in full.

1. Model answer

Uniqueness of row identifier.

2. Model answer

Return all columns.

3. Model answer

Links a row to a related key.

4. Model answer

$A \vee (\neg A \wedge B) = (A \vee \neg A) \wedge (A \vee B) = 1 \wedge (A \vee B) = A \vee B$.

Vocabulary — know these terms

INSERT — Add records.

DELETE — Remove matching records.

DROP TABLE — Remove table definition/data.

LIKE — Pattern matching.

% — Zero or more characters in LIKE.

NEW LEARNING

Read, annotate and explain

Understand

INSERT adds a row; DELETE removes records matching a WHERE predicate. Omitting WHERE can delete every row.

Trace

DROP TABLE removes the table itself, not just one record. It is a destructive schema operation.

Explain

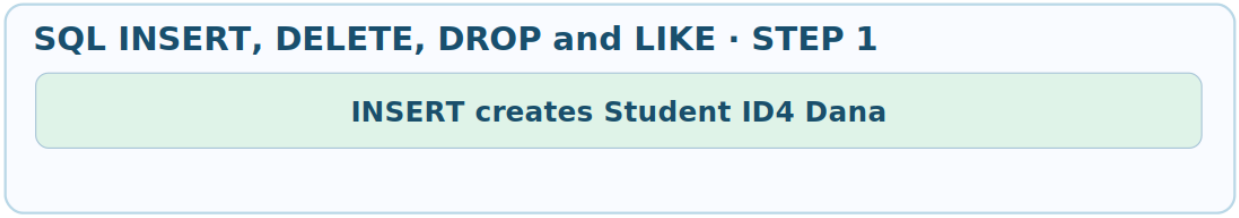

LIKE uses % for any number of characters and _ for a single character in standard SQL. SELECT * means all columns, a different use of *.

Explain one step in your own words, using the correct technical terms.

New Learning · original lesson diagrams

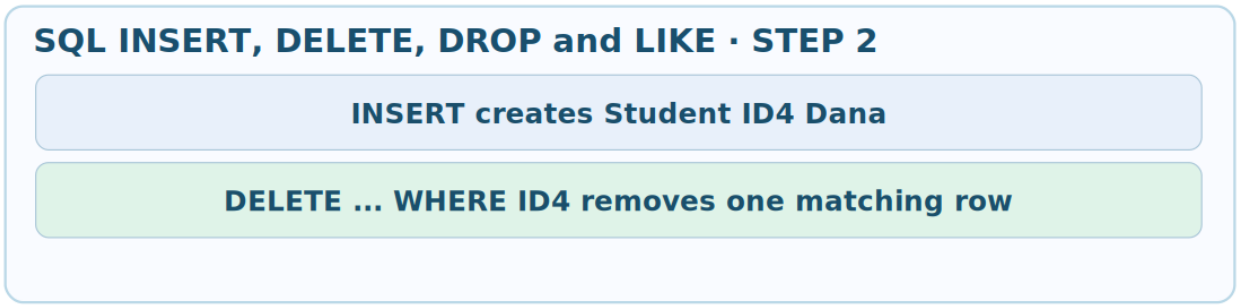

Diagrams appear after the related explanation. Annotate the original source visual.

New Learning

SQL INSERT, DELETE, DROP and LIKE · STEP 5

I DO — WORKED EXAMPLE

Follow the worked method

How would you remove only Student ID=8 without dropping the table?

Predict

DELETE with a key-based WHERE targets that record

Check the answer

DROP TABLE would remove the entire table.

I Do · original lesson diagrams

Diagrams appear after the related explanation. Annotate the original source visual.

How would you remove only Student ID=8 without dropping the table?

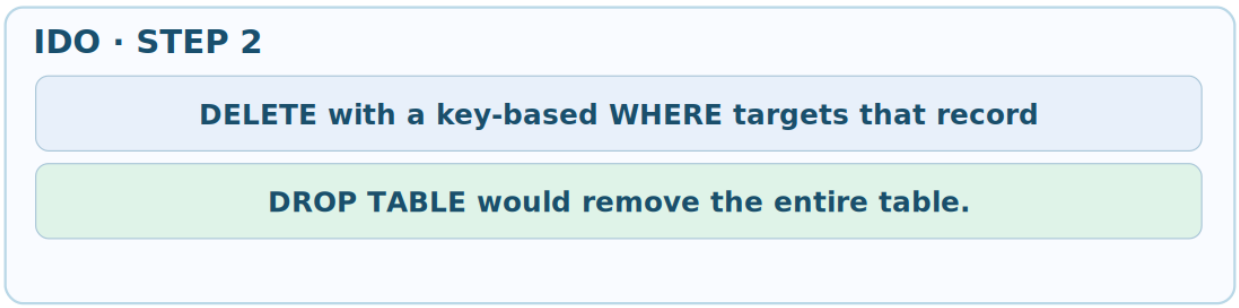

DELETE with a key-based WHERE targets that record

IDO · STEP 1

How would you remove only Student ID=8 without dropping the table?

DELETE with a key-based WHERE targets that record

IDO · STEP 2

WE DO — GUIDED PRACTICE

Try → Discuss → Improve

We Do · original lesson diagrams

Diagrams appear after the related explanation. Annotate the original source visual.

Return names beginning with 'Jo', without choosing all columns.

Jo, John and Joanne match

WEDO · STEP 1

WE DO — TRY · DISCUSS · IMPROVE

TRY: Use the original guided questions and diagrams in the preceding We Do pages. DISCUSS: Explain and challenge methods before independent practice. IMPROVE: Note one change now; compare with the source model only AFTER the Exit Ticket.

Guided 1: Predict Jo, John and Joanne match

DISCUSS — Compare your methods. Justify one important decision, identify one difference, and agree a specific improvement.

IMPROVE — Write one precise correction or stronger explanation in your own answer.

YOU DO — INDEPENDENT PRACTICE

Questions · Part 1

Answer independently. Show code, calculations, a trace or justified reasoning as appropriate.

Question 1

Give correct SQL to add a row (7,'Elena') to Student(ID,Name). [4]

Question 2

Explain DELETE FROM Student without WHERE, and write a safer deletion for ID=7. [6]

YOU DO — INDEPENDENT PRACTICE

Questions · Part 2

Answer independently. Show code, calculations, a trace or justified reasoning as appropriate.

Question 3

Explain difference between SELECT *, LIKE 'A%' and DROP TABLE. Give a use and consequence of each. [6]

EXIT TICKET / REFLECTION

Check your understanding

Complete the actual lesson Exit Ticket before checking the answer.

An SQL LIKE pattern uses * to mean any sequence of characters.

How confident are you? Circle one: Confident / Getting there / Need help

Explain your choice, identifying one concept you can now use independently.

GREEN PEN — Correct and explain

Choose one mistake from your independent work. Write the correct method and explain precisely why your original answer was wrong.

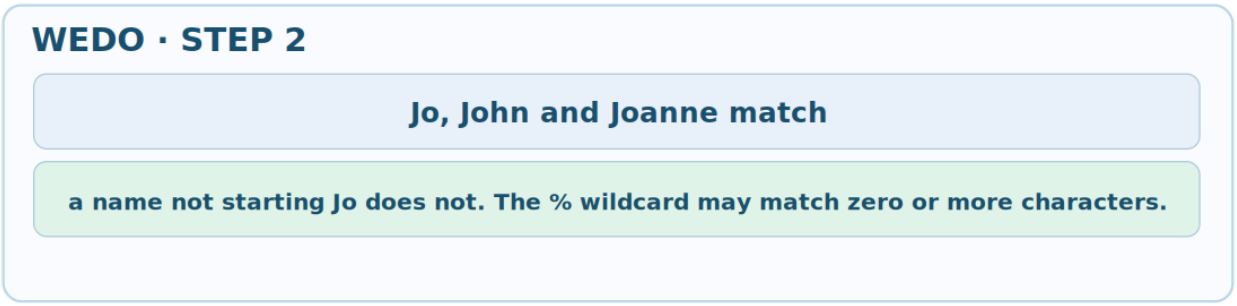

Next step: revisit the model or a relevant revision-guide section if needed.

We Do Check · original lesson diagrams

Diagrams appear after the related explanation. Annotate the original source visual.

Return names beginning with 'Jo', without choosing all columns.

Jo, John and Joanne match

WEDO · STEP 2

WE DO — SOURCE CHECK / IMPROVE

Only use this section AFTER attempting the We Do, You Do and Exit Ticket. Compare with the original classroom lesson's CHECK explanation. Correct errors in GREEN PEN and explain why.

Guided 1 — original CHECK

Check the answer

a name not starting Jo does not. The % wildcard may match zero or more characters.

IMPROVE: Explain one correction to your own reasoning.
