DO NOW — RECALL

# Computing legislation

Name: _____ Class: _____ Date: _____

**1. Which area of law governs personal-data processing?**

**2. Which offence category concerns unauthorised computer access?**

**3. What does copyright generally protect?**

**4. Simplify (A∧B)∨(A∧¬B) and name the key law.**

DO NOW — CHECK / OBJECTIVES

# Correct and improve

Check page 1 in GREEN PEN. Write corrections in full.

### 1. Model answer

UK GDPR and Data Protection Act 2018 (current framework).

### 2. Model answer

Computer misuse.

### 3. Model answer

Qualifying original creative works such as software, text or graphics.

### 4. Model answer

A∧(B∨¬B)=A∧1=A; complement identity and distributivity.

### Vocabulary — know these terms

UK GDPR — Core UK personal-data legal framework.

DPA 2018 — UK Data Protection Act currently in force.

Computer Misuse Act — Law concerning unauthorised computer access/attacks.

copyright — Rights governing use of protected works.

RIPA — Regulation of Investigatory Powers Act 2000.

# WE DO — SOURCE CHECK / IMPROVE

Only use this section AFTER attempting the We Do, You Do and Exit Ticket. Compare with the original classroom lesson's CHECK explanation. Correct errors in GREEN PEN and explain why.

### Guided 1 — original CHECK

Explain

Additional misuse of copied data may raise data-protection or copyright questions depending on the facts.

IMPROVE: Explain one correction to your own reasoning.

# We Do Check · original lesson diagrams

Diagrams appear after the related explanation. Annotate the original source visual.

**Someone deliberately signs into a colleague's account without permission and copies files. Which law is direct**

The key fact is intentional access without authorisation, engaging computer misuse offences.

WEDO · STEP 2; The key fact is intentional access without authorisation, engaging computer misuse offences. then Additional misuse of copied data may raise data-protection or copyright questions depending on the facts.

NEW LEARNING

# Read, annotate and explain

## Understand

Study the four Acts named in the H446 specification for exam terminology, but do not confuse the historical Data Protection Act 1998 with current law.

## Apply

Current UK personal-data processing is principally governed by UK GDPR and the Data Protection Act 2018, with later amendments. Lawful processing, fairness, transparency and data minimisation are key principles.

## Evaluate

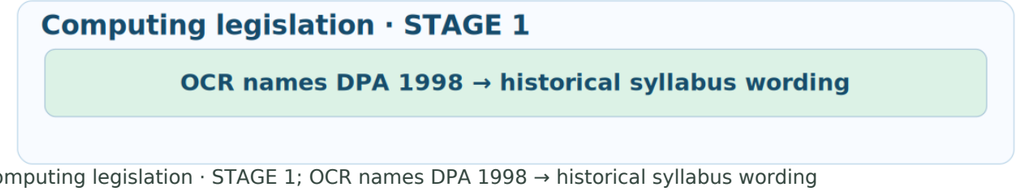

The Computer Misuse Act concerns unauthorised computer access and attacks; copyright law protects qualifying creative works; RIPA addresses particular investigatory powers and safeguards, not a general licence for anyone to monitor communications.

**Explain one step in your own words, using the correct technical terms.**

# New Learning · original lesson diagrams

Diagrams appear after the related explanation. Annotate the original source visual.

**New Learning**

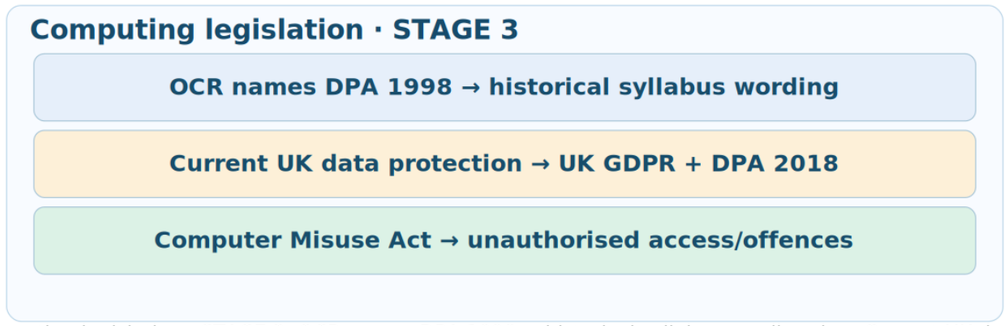

Computing legislation · STAGE 1; OCR names DPA 1998 → historical syllabus wording

**New Learning**

Computing legislation · STAGE 2; OCR names DPA 1998 → historical syllabus wording then Current UK data protection → UK GDPR + DPA 2018

**New Learning**

Computing legislation · STAGE 3; OCR names DPA 1998 → historical syllabus wording then Current UK data protection → UK GDPR + DPA 2018 then Computer Misuse Act → unauthorised access/offences

EXIT TICKET / REFLECTION

# Check your understanding

Complete the actual lesson Exit Ticket before checking the answer.

**Because OCR lists DPA 1998, that Act is the current primary UK data-protection legislation.**

**How confident are you? Circle one: Confident / Getting there / Need help**

Explain your choice, identifying one concept you can now use independently.

**GREEN PEN — Correct and explain**

Choose one mistake from your independent work. Write the correct method and explain precisely why your original answer was wrong.

Next step: revisit the model or a relevant revision-guide section if needed.

YOU DO — INDEPENDENT PRACTICE

# Questions · Part 2

Answer independently. Show code, calculations, a trace or justified reasoning as appropriate.

### Question 3

Explain the difference between OCR's named DPA 1998 and current UK data-protection law, then apply lawful and secure processing to a school AI system. [6]

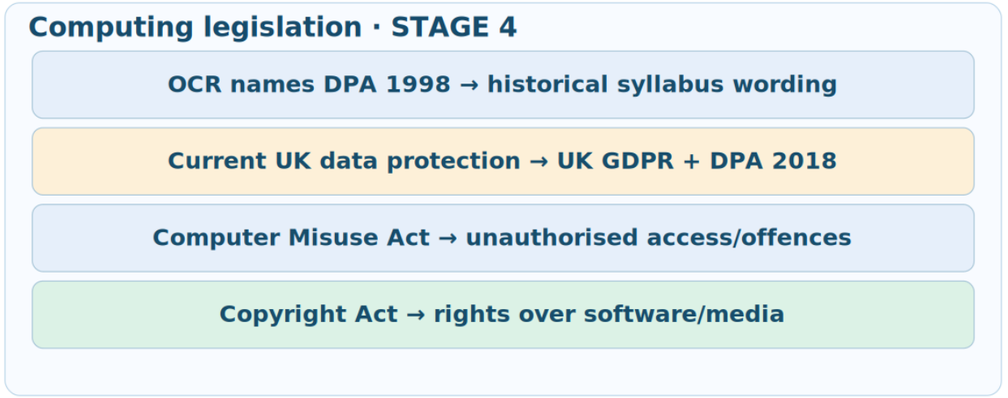

# New Learning · original lesson diagrams

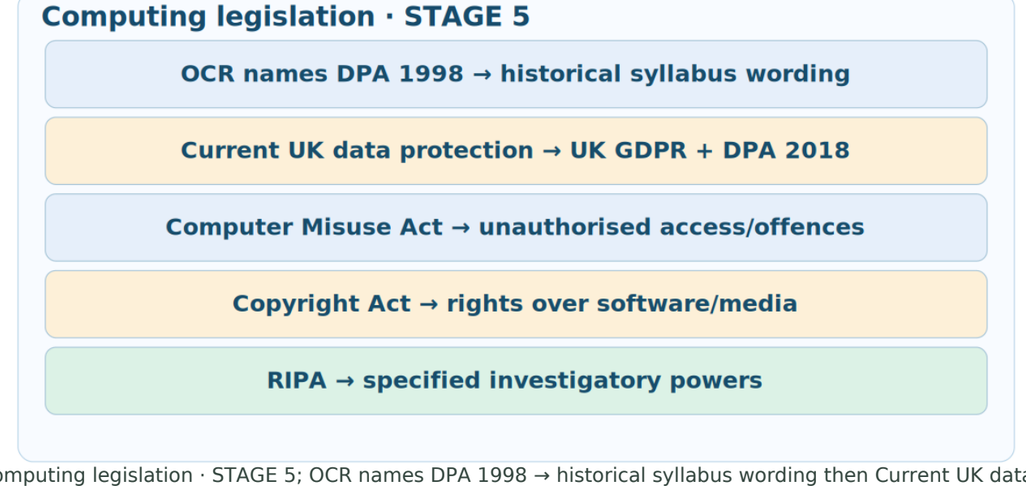

Diagrams appear after the related explanation. Annotate the original source visual.

**New Learning**

Computing legislation · STAGE 4; OCR names DPA 1998 → historical syllabus wording then Current UK data protection → UK GDPR + DPA 2018 then Computer Misuse Act → unauthorised access/offences then Copyright Act → rights over software/media

**New Learning**

Computing legislation · STAGE 5; OCR names DPA 1998 → historical syllabus wording then Current UK data protection → UK GDPR + DPA 2018 then Computer Misuse Act → unauthorised access/offences then Copyright Act → rights over software/media then RIPA → specified investigatory powers

I DO — WORKED EXAMPLE

# Follow the worked method

**A school publishes identifiable pupil progress data online without appropriate lawful basis. Which legal area is central?**

### Predict first

Identifiable progress records are personal data; assess a lawful basis, purpose, fairness, security and privacy duties.

### Explain

For current UK law use UK GDPR and DPA 2018, while recognising the older Act named in OCR wording.

YOU DO — INDEPENDENT PRACTICE

# Questions · Part 1

Answer independently. Show code, calculations, a trace or justified reasoning as appropriate.

### Question 1

Name the four Acts explicitly listed in OCR H446 1.5.1. [4]

### Question 2

A pupil gains access to staff records using a stolen login. Explain the legal concerns and data-handling implications. [6]

# WE DO — TRY · DISCUSS · IMPROVE

TRY: Use the original guided questions and diagrams in the preceding We Do pages. DISCUSS: Explain and challenge methods before independent practice. IMPROVE: Note one change now; compare with the source model only AFTER the Exit Ticket.

**Guided 1: Predict first The key fact is intentional access without authorisation, engaging computer misuse offences.**

DISCUSS — Compare your methods. Justify one important decision, identify one difference, and agree a specific improvement.

IMPROVE — Write one precise correction or stronger explanation in your own answer.

# I Do · original lesson diagrams

Diagrams appear after the related explanation. Annotate the original source visual.

**A school publishes identifiable pupil progress data online without appropriate lawful basis. Which legal area**

Identifiable progress records are personal data; assess a lawful basis, purpose, fairness, security and privacy duties.

IDO · STEP 1; Identifiable progress records are personal data; assess a lawful basis, purpose, fairness, security and privacy duties.

**A school publishes identifiable pupil progress data online without appropriate lawful basis. Which legal area**

Identifiable progress records are personal data; assess a lawful basis, purpose, fairness, security and privacy duties.

IDO · STEP 2; Identifiable progress records are personal data; assess a lawful basis, purpose, fairness, security and privacy duties. then For current UK law use UK GDPR and DPA 2018, while recognising the older Act named in OCR wording.

WE DO — GUIDED PRACTICE

# Try → Discuss → Improve
