DO NOW — RECALL

Paper 1 examiner-style feedback

Name: _____ Class: _____ Date: _____

1. Why does cache hit reduce memory delay?

2. What does a model answer need for a 6-mark explanation?

3. What is a mark-scheme method point?

4. Convert binary 01011000_2 to hexadecimal and decimal.

DO NOW — CHECK / OBJECTIVES

Correct and improve

Check page 1 in GREEN PEN. Write corrections in full.

1. Model answer

It may avoid a slower main-memory access.

2. Model answer

Accurate mechanism, context and supported consequences.

3. Model answer

Credit for a correct intermediate step or justified inference.

4. Model answer

58_{16}, decimal 88 (64+16+8).

By the end, you can…

- Diagnose rather than praise vaguely
- Show full method
- Demonstrate transfer

Vocabulary — know these terms

evaluation — Judgement supported by evidence.

method mark — Award for correct reasoning step.

misconception — Incorrect conceptual model.

transfer — Applying learning to unfamiliar problem.

NEW LEARNING

Read, annotate and explain

Diagnose rather than praise vaguely

Separate inaccurate knowledge, missing context and absent justification; use an explicit improvement target.

Show full method

Write intermediary calculations, trace states and correctly named registers or SQL keys.

Demonstrate transfer

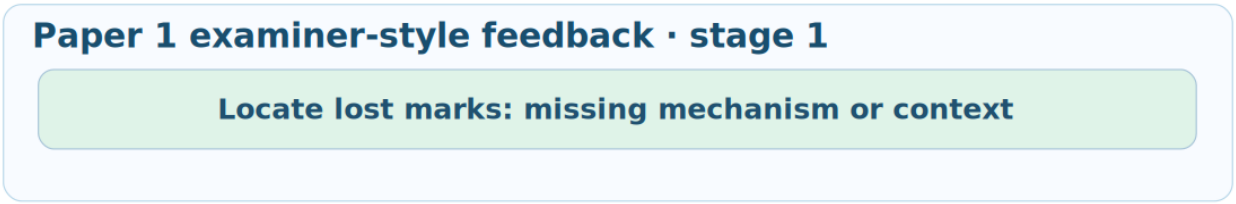

Apply the improved method to a different question, not a copied mark-scheme answer.

Explain one step in your own words, using the correct technical terms.

New Learning · original lesson diagrams

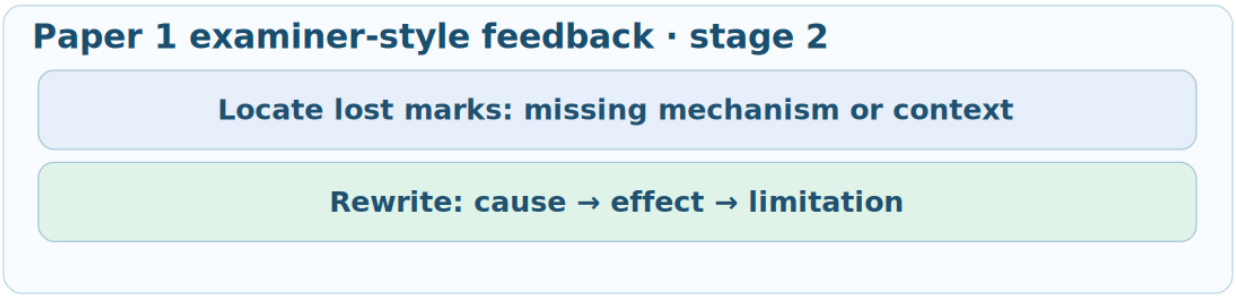

Diagrams appear after the related explanation. Annotate the original source visual.

New Learning

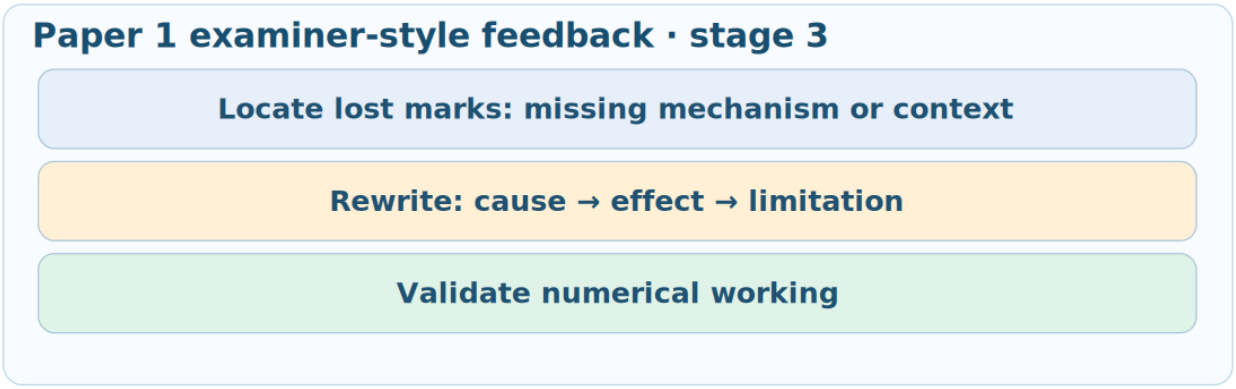

Paper 1 examiner-style feedback · stage 1: Locate lost marks: missing mechanism or context

New Learning

Paper 1 examiner-style feedback · stage 2: Locate lost marks: missing mechanism or context; Rewrite: cause → effect → limitation

New Learning

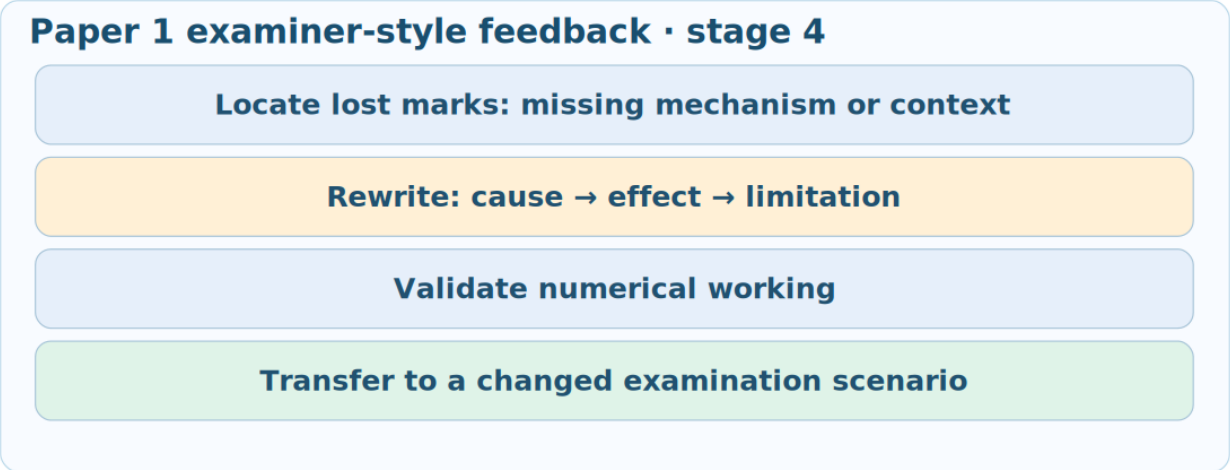

Paper 1 examiner-style feedback · stage 3: Locate lost marks: missing mechanism or context; Rewrite: cause → effect → limitation; Validate numerical working

New Learning · original lesson diagrams

Diagrams appear after the related explanation. Annotate the original source visual.

New Learning

Paper 1 examiner-style feedback · stage 4: Locate lost marks: missing mechanism or context; Rewrite: cause → effect → limitation; Validate numerical working; Transfer to a changed examination scenario

I DO — WORKED EXAMPLE

Follow the worked method

Improve 'pipelining makes instructions twice as quick'.

Predict first

Name the mechanism—overlapping stages of different instructions—rather than speeding an individual stage.

Check reasoning

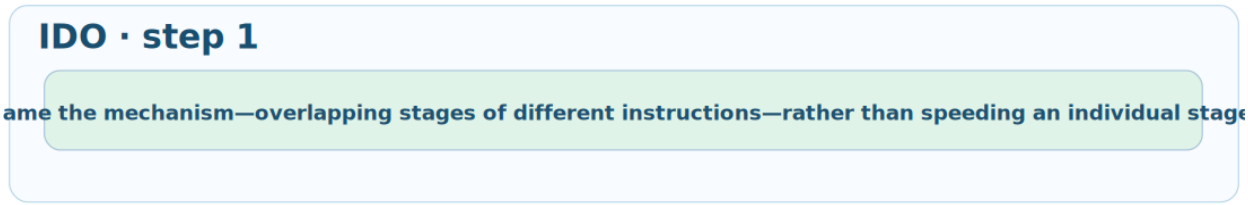

State a limitation, such as dependency stalls or branch flushes.

I Do · original lesson diagrams

Diagrams appear after the related explanation. Annotate the original source visual.

Improve 'pipelining makes instructions twice as quick'.

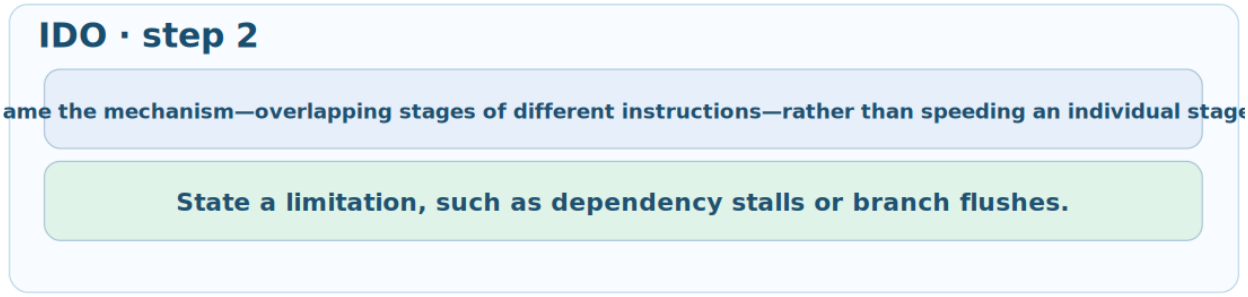

Name the mechanism—overlapping stages of different instructions—rather than speeding an individual stage.

IDO · step 1: Name the mechanism—overlapping stages of different instructions—rather than speeding an individual stage.

Improve 'pipelining makes instructions twice as quick'.

Name the mechanism—overlapping stages of different instructions—rather than speeding an individual stage.

IDO · step 2: Name the mechanism—overlapping stages of different instructions—rather than speeding an individual stage.; State a limitation, such as dependency stalls or branch flushes.

WE DO — GUIDED PRACTICE

Try → Discuss → Improve

We Do · original lesson diagrams

Diagrams appear after the related explanation. Annotate the original source visual.

Improve 'a JOIN combines tables' for an inner join on StudentID.

Name the matching attribute and type of join rather than a generic table combination.

WEDO · step 1: Name the matching attribute and type of join rather than a generic table combination.

WE DO — TRY · DISCUSS · IMPROVE

TRY: Use the original guided questions and diagrams in the preceding We Do pages. DISCUSS: Explain and challenge methods before independent practice. IMPROVE: Note one change now; compare with the source model only AFTER the Exit Ticket.

Guided 1: Predict first Name the matching attribute and type of join rather than a generic table combination.

DISCUSS — Compare your methods. Justify one important decision, identify one difference, and agree a specific improvement.

IMPROVE — Write one precise correction or stronger explanation in your own answer.

YOU DO — INDEPENDENT PRACTICE

Questions · Part 1

Answer independently. Show code, calculations, a trace or justified reasoning as appropriate.

Question 1

Rewrite 'Harvard is faster' to explain architecture and qualify performance. [6]

Question 2

An answer says −6 is 11111001_2 in 8-bit two's complement. Correct it with full working. [6]

YOU DO — INDEPENDENT PRACTICE

Questions · Part 2

Answer independently. Show code, calculations, a trace or justified reasoning as appropriate.

Question 3

Explain why 9-mark evaluations need balanced, contextual judgement, using a hypothetical school cloud-storage deployment. [6]

EXIT TICKET / REFLECTION

Check your understanding

Complete the actual lesson Exit Ticket before checking the answer.

Repeating the final answer without the working is always sufficient to gain method marks.

How confident are you? Circle one: Confident / Getting there / Need help

Explain your choice, identifying one concept you can now use independently.

GREEN PEN — Correct and explain

Choose one mistake from your independent work. Write the correct method and explain precisely why your original answer was wrong.

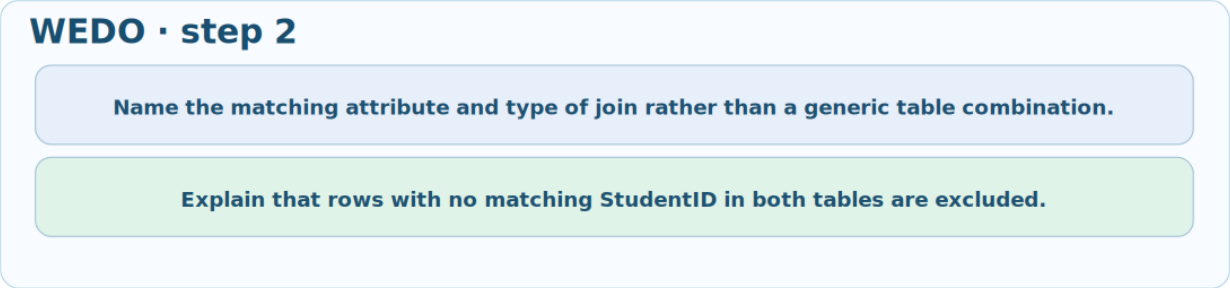

Next step: revisit the model or a relevant revision-guide section if needed.

We Do Check · original lesson diagrams

Diagrams appear after the related explanation. Annotate the original source visual.

Improve 'a JOIN combines tables' for an inner join on StudentID.

Name the matching attribute and type of join rather than a generic table combination.

WEDO · step 2: Name the matching attribute and type of join rather than a generic table combination.; Explain that rows with no matching StudentID in both tables are excluded.

WE DO — SOURCE CHECK / IMPROVE

Only use this section AFTER attempting the We Do, You Do and Exit Ticket. Compare with the original classroom lesson's CHECK explanation. Correct errors in GREEN PEN and explain why.

Guided 1 — original CHECK

Check reasoning

Explain that rows with no matching StudentID in both tables are excluded.

IMPROVE: Explain one correction to your own reasoning.
