EXIT TICKET / REFLECTION

Check your understanding

Complete the actual lesson Exit Ticket before checking the answer.

Many disconnected technical terms guarantee full extended-response marks.

How confident are you? Circle one: Confident / Getting there / Need help

Explain your choice, identifying one concept you can now use independently.

GREEN PEN — Correct and explain

Choose one mistake from your independent work. Write the correct method and explain precisely why your original answer was wrong.

Next step: revisit the model or a relevant revision-guide section if needed.

DO NOW — RECALL

Paper 1 extended response challenge

Name: _____ Class: _____ Date: _____

1. What does evaluate mean?

2. What is a counterargument?

3. Why mention the scenario?

4. Half adder A=1 B=1. Give sum and carry.

DO NOW — CHECK / OBJECTIVES

Correct and improve

Check page 1 in GREEN PEN. Write corrections in full.

1. Model answer

Make a reasoned judgement, with relevant supporting evidence.

2. Model answer

A relevant limitation to the preferred choice.

3. Model answer

It decides which advantages and limitations matter.

4. Model answer

Sum0 from XOR; carry1 from AND.

By the end, you can…

• Identify scenario-specific objectives and two valid alternatives.

• Explain mechanisms and trade-offs with accurate technical details.

• Conclude with judgement grounded in costs, users, performance and security.

Vocabulary — know these terms

evaluation — Supported comparison and decision.

trade-off — Improvement with an associated cost.

context — Details of the specified use case.

justification — Evidence supporting a decision.

YOU DO — INDEPENDENT PRACTICE

Questions · Part 2

Answer independently. Show code, calculations, a trace or justified reasoning as appropriate.

Question 3

Evaluate nightly local-only backups versus secure independent off-site frequent backups for school records. [9]

YOU DO — INDEPENDENT PRACTICE

Questions · Part 1

Answer independently. Show code, calculations, a trace or justified reasoning as appropriate.

Question 1

Improve 'the cloud is better' for a school, explaining a benefit, limitation and judgement. [6]

Question 2

Evaluate GPU versus multicore CPU for video analysis and general tasks. [9]

NEW LEARNING

Read, annotate and explain

Step 1

Identify scenario-specific objectives and two valid alternatives.

Step 2

Explain mechanisms and trade-offs with accurate technical details.

Step 3

Conclude with judgement grounded in costs, users, performance and security.

Explain one step in your own words, using the correct technical terms.

I DO — WORKED EXAMPLE

Follow the worked method

Evaluate SSD versus HDD for a mobile video editor.

Explain the worked method

A strong answer explains mechanical access, portability and the need for backups.

WE DO — GUIDED PRACTICE

Try → Discuss → Improve
