Exit Ticket · reflect and retrieve

Exit Ticket

Because OCR lists DPA 1998, that Act is the current primary UK data-protection legislation.

Use key vocabulary from memory

1. Explain UK GDPR in your own words.

2. Explain DPA 2018 in your own words.

3. Explain Computer Misuse Act in your own words.

Confidence and next step

How confident are you? Thumbs up / side / down

Which question would you improve after checking the classroom model?

Check answers after the lesson using the teacher-guided source models.

RHS COMPUTING / OCR H446 / LESSON 295 DRAFT · TEACHER REVIEW

Do Now · retrieval

Computing legislation

Name: _____ Class: _____ Date: _____

Answer four retrieval questions before reviewing earlier learning.

Q1

Which area of law governs personal-data processing?

Q2

Which offence category concerns unauthorised computer access?

Q3

What does copyright generally protect?

Q4

Simplify (A∧B)∨(A∧¬B) and name the key law.

New Learning · key ideas

The important knowledge from today's lesson. Read, annotate, and explain it.

Core idea 1

Understand — Study the four Acts named in the H446 specification for exam terminology, but do not confuse the historical Data Protection Act 1998 with current law.

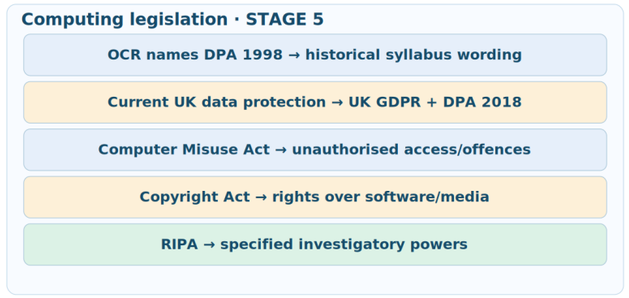

Core idea 2

Apply — Current UK personal-data processing is principally governed by UK GDPR and the Data Protection Act 2018, with later amendments. Lawful processing, fairness, transparency and data minimisation are key principles.

Core idea 3

Evaluate — The Computer Misuse Act concerns unauthorised computer access and attacks; copyright law protects qualifying creative works; RIPA addresses particular investigatory powers and safeguards, not a general licence for anyone to monitor communications.

Key visual · complete concept

Annotate the key visual

Explain which labels or features show the main process.

You Do · extended practice

Answer these selected original questions in BLACK PEN. Other exam tasks remain online.

Question 3

Explain the difference between OCR's named DPA 1998 and current UK data-protection law, then apply lawful and secure processing to a school AI system. [6]

Check that you have used the technical terms and explained your decisions.

You Do · independent practice

Answer these selected original questions in BLACK PEN. Other exam tasks remain online.

Question 1

Name the four Acts explicitly listed in OCR H446 1.5.1. [4]

Question 2

A pupil gains access to staff records using a stolen login. Explain the legal concerns and data-handling implications. [6]

Check that you have used the technical terms and explained your decisions.

New Learning · applying the ideas

Vocabulary · use the correct technical terms

UK GDPR — Core UK personal-data legal framework.

DPA 2018 — UK Data Protection Act currently in force.

Computer Misuse Act — Law concerning unauthorised computer access/attacks.

copyright — Rights governing use of protected works.

Check your understanding

Explain one key process in your own words using two of the terms above.

More animated examples are available in the original online lesson.

I Do · worked example

Problem

A school publishes identifiable pupil progress data online without appropriate lawful basis. Which legal area is central?

Follow the worked method

1. Predict first — Identifiable progress records are personal data; assess a lawful basis, purpose, fairness, security and privacy duties.

2. Explain — For current UK law use UK GDPR and DPA 2018, while recognising the older Act named in OCR wording.

Source model · final illustrated step

Why this method works

Identify the decision, rule or invariant that makes the method correct.

We Do · Try → Discuss → Improve

TRY independently in BLACK PEN; compare methods with a partner; improve your reasoning.

Guided problem · TRY

Predict first
The key fact is intentional access without authorisation, engaging computer misuse offences.

DISCUSS

Compare how you reached the answer. Where could someone make an error?

IMPROVE

Add one precise correction or a stronger reason. Answers are not printed here.
