Exit Ticket · reflect and retrieve

Exit Ticket

Many disconnected technical terms guarantee full extended-response marks.

Use key vocabulary from memory

1. Explain evaluation in your own words.

2. Explain trade-off in your own words.

3. Explain context in your own words.

Confidence and next step

How confident are you? Thumbs up / side / down

Which question would you improve after checking the classroom model?

Check answers after the lesson using the teacher-guided source models.

Do Now · retrieval

Paper 1 extended response challenge

Name: _____ Class: _____ Date: _____

Answer four retrieval questions before reviewing earlier learning.

Q1

What does evaluate mean?

Q2

What is a counterargument?

Q3

Why mention the scenario?

Q4

Half adder A=1 B=1. Give sum and carry.

New Learning · key ideas

The important knowledge from today's lesson. Read, annotate, and explain it.

Core idea 1

Step 1 — Identify scenario-specific objectives and two valid alternatives.

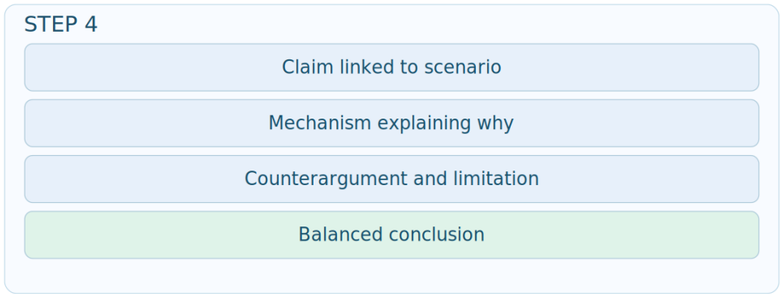

Core idea 2

Step 2 — Explain mechanisms and trade-offs with accurate technical details.

Core idea 3

Step 3 — Conclude with judgement grounded in costs, users, performance and security.

Key visual · complete concept

Annotate the key visual

Explain which labels or features show the main process.

You Do · extended practice

Answer these selected original questions in BLACK PEN. Other exam tasks remain online.

Question 3

Evaluate nightly local-only backups versus secure independent off-site frequent backups for school records. [9]

Check that you have used the technical terms and explained your decisions.

You Do · independent practice

Answer these selected original questions in BLACK PEN. Other exam tasks remain online.

Question 1

Improve 'the cloud is better' for a school, explaining a benefit, limitation and judgement. [6]

Question 2

Evaluate GPU versus multicore CPU for video analysis and general tasks. [9]

Check that you have used the technical terms and explained your decisions.

New Learning · applying the ideas

Vocabulary · use the correct technical terms

evaluation — Supported comparison and decision.

trade-off — Improvement with an associated cost.

context — Details of the specified use case.

justification — Evidence supporting a decision.

Check your understanding

Explain one key process in your own words using two of the terms above.

More animated examples are available in the original online lesson.

I Do · worked example

Problem

Evaluate SSD versus HDD for a mobile video editor.

Follow the worked method

1. Explain the worked method — A strong answer explains mechanical access, portability and the need for backups.

Source model · final illustrated step

IDO · METHOD

A strong answer explains mechanical access, portability and the need for backups.

Why this method works

Identify the decision, rule or invariant that makes the method correct.

We Do · Try → Discuss → Improve

TRY independently in BLACK PEN; compare methods with a partner; improve your reasoning.

Guided problem · TRY

Explain the worked method
Match security, home connectivity and backup provision to the school context.

DISCUSS

Compare how you reached the answer. Where could someone make an error?

IMPROVE

Add one precise correction or a stronger reason. Answers are not printed here.
