

L01 - Welcome to Computing

A printable lesson booklet for students working independently.

Lesson overview

In this lesson you will learn classroom expectations, safe use of school technology, password basics and how to present your work.

Lesson routine

Do Now

I Do

We Do

You Do

Do Now

Silent
Working

Start from memory - 6 minutes

1. Write three things that help everyone learn well in Computing.

2. What should you do when someone else is speaking?

3. What should you keep away from the computer desks?

4. What should you do if a task feels difficult?

Listening

SLANT lesson behaviour

- S** Sit Up
- L** Listen Carefully
- A** Ask and Answer
- N** Never Interrupt
- T** Track the Speaker

Match each situation to the best SLANT behaviour.

- 1. Someone else is explaining an answer. _____
- 2. You do not understand an instruction. _____
- 3. The teacher is modelling something on screen. _____
- 4. You have an idea that could help the class. _____
- 5. Another student has not finished speaking. _____

I Do

Listening

Read the key information

Filtering

If you try to open a website the school considers inappropriate, access may be blocked. If you think a website should or should not be blocked, tell a teacher.

Monitoring

Staff can see school device screens, internet history, files and emails. School devices and accounts should only be used for schoolwork.

Important

Breaking the Acceptable Use Agreement can lead to a negative on Arbor. Two negatives trigger a lunchtime detention.

We Do

Quiet
Working

Guided check

1. A website is blocked by the school system. What is this process called?

2. A member of staff can see your school screen and internet history. What is this called?

3. Why should your school account only be used for schoolwork?

You Do

Silent
Working

Acceptable Use scenarios

Write FOLLOW or BREAK, then explain why.

1. A student uses their school account to complete homework.

2. A student shares their school password with a friend.

3. A student keeps trying to reach a blocked website.

4. A student tells the teacher that a useful learning website has been blocked.

5. A student uses inappropriate language in a school email.

Page 3 - Passwords and presentation

I Do

Listening

Password rule

Your school password should be at least 10 characters long. You will not normally be asked to change it unless there is an issue with your account.

Do not write your real password in this booklet. Use fictional examples only.

We Do

Quiet
Working

Password check

Example	Characters	10 or more?	What would you change?
Password1	_____	_____	_____
redfox	_____	_____	_____
BlueLaptop7	_____	_____	_____

You Do

Silent
Working

Password detective

1. Create two fictional passwords that are at least 10 characters long.

2. Why should you never share your school password?

3. Why is it safer to remember your password than write it somewhere obvious?

Presentation of work

Quiet
Working

Paper work

- Title and date at the top
- Underline headings with a ruler
- Write neatly in black or blue pen
- Mark in coloured pen
- Cross out mistakes with one line

Class Notebook

- Add the date
- Use clear titles and headings
- Use bullets or numbering when helpful
- Crop screenshots neatly

Final challenge

Read each situation. Explain what the student should do next.

1. A useful website is blocked. What should the student do next?

2. A friend asks for your school password. What should you do?

3. You find a task difficult and want to give up. What should you do?

4. A screenshot in Class Notebook is stretched and uncropped. How should it be improved?

Exit
Questioning

Quiet
Working

Before you finish

1. What is filtering?

2. What is monitoring?

3. How many characters should your school password have at minimum?

4. Name two expectations for presenting Computing work.

5. What does one letter from SLANT stand for?

Final self-check

- ☐ I attempted every section.
- ☐ I used the lesson behaviour shown by the green icons.
- ☐ I did not write down my real password.
- ☐ My work is neat enough for someone else to read.

One thing I learned today:

One question I still have:
