BLACK PEN Answer all questions first. **GREEN PEN** Then: tick and rewrite mistakes.

LESSON 297 · Environment, censorship and digital accessibility

Name: _____ Class: _____ Date: _____

Work through the pages in order. Answer in BLACK PEN first. Check in GREEN PEN only after the Exit Ticket.

Do Now · Recall previous learning

Q1. What is a false positive in content moderation?

Q2. Why is Unicode used?

Q3. Give one environmental concern with data centres.

Q4. ASCII capital A is decimal 65. Encode string 'ABA' with 8 bits per character: total bits and bytes.

BLACK PEN Answer all questions first. GREEN PEN Then: tick and rewrite mistakes.

I Do · Read new knowledge

Key vocabulary

e-waste — Discarded electrical/electronic equipment.

censorship — Restrictions on expression/content.

accessibility — Use by people with varied needs.

contrast — Visual difference aiding readability.

Unicode — Universal character encoding repertoire.

New learning

Understand — Digital infrastructure consumes electricity and hardware resources; energy demand, device lifetimes, repairability and electronic waste are part of environmental evaluation.

Apply — Censorship and moderation can restrict harmful content, but also threaten freedom of expression and access to information. Evaluate proportionate rules, appeals and transparency.

Evaluate — Accessible design goes beyond attractive colours: sufficient contrast, structural headings, meaningful labels, keyboard access, language/character support and alternatives to colour-only cues.

Worked example

A chart shows success only with green and failure only with red. How can you improve accessibility?

1. Predict first — Colour-only status is inaccessible to users with some colour-vision differences.

2. Explain — Add words and/or shapes alongside adequate contrast; do not rely on colour as the sole signal.

We Do · Practise with guidance

A school removes all comments from an online student discussion after one offensive message. Evaluate.

```
Alternative: targeted moderation,
clear rules, evidence and appeal.
```

Predict first

Blanket removal prevents harmful posts but can also silence legitimate discussion and learning.

BLACK PEN Answer all questions first. **GREEN PEN** Then: tick and rewrite mistakes.

Explain

Transparent, proportionate moderation with appeal and safeguarding escalation better balances harms and expression.

BLACK PEN Answer all questions first. GREEN PEN Then: tick and rewrite mistakes.

You Do · Work independently

BLACK PEN: Write your own answers. Do not look at the Review & Improve pages yet.

Question 1

Explain three features that make a website more accessible to diverse users. [6]

Question 2

Discuss two benefits and two risks of automated content moderation on a school platform. [8]

Question 3

Evaluate both environmental and social impacts of replacing school laptops every two years instead of extending safe service life. [6]

Exit Ticket · Answer before checking

A chart that uses distinct red and green colours needs no other status labels.

BLACK PEN Answer all questions first. GREEN PEN Then: tick and rewrite mistakes.

Review & Improve · GREEN PEN

Now change to GREEN PEN. Find each original question. Tick correct answers; read the model and rewrite mistakes.

Page 1 onwards · Do Now

Q1. A harmless item incorrectly flagged as harmful.

Q2. Represent characters from many languages and writing systems.

Q3. Power use/cooling or hardware lifecycle impacts.

Q4. 3 characters ×8=24 bits=3 bytes (under stated simple single-byte assumption).

You Do pages · Independent questions

Q1. Text contrast [2], labels/semantics [2], keyboard access/alternative cues [2].

Q2. Reduce harmful posts [2], scalability [2], false positives/censorship [2], opaque bias/appeal [2].

Q3. New hardware energy/resource/e-waste [2]; repair/reuse reduces impact [1]; older devices may be less efficient or less secure [1]; accessibility/performance needs [1]; whole-life evaluation [1].

Exit Ticket · Model answer

False. Do not rely only on colour to communicate meaning.

Try the question again

Choose one question you got wrong. All correct? Choose the hardest.

1. Copy the whole original question:

2. Write a complete new answer in GREEN PEN. Show working if needed:
