BLACK PEN Answer all questions first. **GREEN PEN** Then: tick and rewrite mistakes.

LESSON 121 · Assessment Feedback and Corrections

Name: _____ Class: _____ Date: _____

Work through the pages in order. Answer in BLACK PEN first. Check in GREEN PEN only after the Exit Ticket.

Do Now · Recall previous learning

Q1. In a trace table, should you record executed variable updates or only variable names?

Q2. Which description matches a NOT gate symbol?
A. Triangle with output circle
B. Flat input; rounded output
C. Curved input; pointed output
D. A decision diamond

Q3. An indicator uses Q = NOT A. Give outputs for A=0 and A=1, then evaluate NOT(NOT A) for both values.

Q4. Linear-search [7, 2, 9, 4] for 2, starting at index 0. List the values checked. How many comparisons are needed?

BLACK PEN Answer all questions first. **GREEN PEN** Then: tick and rewrite mistakes.

I Do · Read new knowledge

Key vocabulary

Read feedback — Identify exactly which assessment marking point was not secured.

Correct the method — Amend the explanation or algorithm, not merely the final answer.

Use a model — Compare the original response with a worked mark-scheme-aligned solution.

Transfer — Apply the same correction to a new question without copying the worked example.

New learning

Read feedback: Identify exactly which assessment marking point was not secured.

Correct the method: Amend the explanation or algorithm, not merely the final answer.

Use a model: Compare the original response with a worked mark-scheme-aligned solution.

Transfer: Apply the same correction to a new question without copying the worked example.

Worked example

A student writes 'virtual memory makes RAM faster'. Improve the answer to earn two explanation marks.

1. Identify the misconception: virtual memory is not physical RAM.

2. Explain that secondary storage backs some pages when RAM is insufficient.

3. Explain secondary storage access is slower than RAM.

4. Write a concise corrected two-sentence response.

We Do · Practise with guidance

Guided 1

A search answer omits 'sorted' before binary search. Improve it.

Worked method: Binary search works on sorted data, repeatedly halving the active range.

BLACK PEN Answer all questions first. **GREEN PEN** Then: tick and rewrite mistakes.

You Do · Work independently

BLACK PEN: Write your own answers. Do not look at the Review & Improve pages yet.

Code First · Predict → Write → Test → Improve

Correct the midpoint formula in a supplied search trace.

```
low = 0
high = 8
mid = (low + high) * 2
print(mid)
```

iterate

Question 1

Correct: 'ROM loses its data when power is removed'. [2 marks]

Question 2

A student's trace omits the final loop iteration. Explain the impact. [2 marks]

Question 3

Write an improvement target for an incomplete 4-mark explanation. [2 marks]

Exit Ticket · Answer before checking

Corrections should address the method, not just the final value.

BLACK PEN Answer all questions first. **GREEN PEN** Then: tick and rewrite mistakes.

BLACK PEN Answer all questions first. **GREEN PEN** Then: tick and rewrite mistakes.

Review & Improve · GREEN PEN

Now change to GREEN PEN. Find each original question. Tick correct answers; read the model and rewrite mistakes.

Page 1 onwards · Do Now

Q1. Executed variable updates in their actual order.

Q2. A — Triangle with output circle

Q3. Q: 1, 0. Double NOT: 0, 1, restoring A.

Q4. (a) [7, 2]; 2 comparison(s), found at index 1.

I Do / We Do pages · Guided practice

Q1. Binary search works on sorted data, repeatedly halving the active range.

You Do pages · Code First

```
low = 0
high = 8
mid = (low + high) DIV 2
print(mid)
```

Expected result: 4

You Do pages · Independent questions

Q1. ROM is non-volatile; contents remain without power.

Q2. The last update is missed, so the final recorded state and possibly output are incorrect.

Q3. Use four accurate, distinct causal points linked to the scenario and check each against marks.

Exit Ticket · Model answer

True

Try the question again

Choose one question you got wrong. All correct? Choose the hardest.

1. Copy the whole original question:

BLACK PEN Answer all questions first. **GREEN PEN** Then: tick and rewrite mistakes.

2. Write a complete new answer in GREEN PEN. Show working if needed:
